

"Be yourself, be anything, we are the future."

Monday 19th February 2024

Dear Parents and Carers,

It has been lovely welcoming the children back to school for Spring Term 2. Although not yet officially Spring, I hope you are enjoying the longer days, warmer weather and the sprouting of the daffodils. Also, a big thank you for supporting your children with our ongoing creative competitions: The Spring Birdwatch art, the Walk-to-school WOW badges and the Online Safety Week posters (not to mention the Y6 WWI trenches). It has been lovely to see so many pupils proudly showing me their entries.

Speaking of Online Safety Week, as part of our drive to keep children and young people safe online, Bucks Council, Mrs Bawany (our school's Online Safety Coordinator) and I are recommending the following webinar around understanding computer misuse, hacking and cybercrime.

Cyber Choices is a program that supports those people at risk of committing computer misuse offences, such as hacking. These risks are far more real than most people recognise, with around 1 in 4 young people admitting to committing low-harm cybercrimes, perhaps without even realising what they were doing was illegal.

The webinars are ideally suited to parents/carers of children in Year 3 (age 7) and above, all the way up to college, university and beyond, and will help understand what computer misuse is, what the risks to young people are, how to recognise some of the indicators that young people may be involved in committing cybercrimes, and how the Cyber Choices program supports at-risk individuals.

The Cyber Choices program is led by the National Crime Agency, and delivered locally by SEROCU (the South East Regional Organised Crime Unit).
